Najmul Hasan

Full-Stack & React Native Developer

Dhaka, Bangladesh | hire@najmulhasan.dev | hire.najmulhasan.dev
GitHub | LinkedIn

SUMMARY

Full-stack developer (MERN and React Native) focused on building and stabilizing real-world applications: designing APIs, handling authentication, and resolving production-level issues such as API mismatches and state synchronization. Available for freelance and part-time work.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Mobile: React Native, Expo, NativeWind

Backend: Node.js, Express.js, REST APIs, JWT authentication, Socket.IO

Data: MongoDB, Supabase (PostgreSQL), Firebase, Firestore

Integrations: Stripe, Claude API, GitHub REST API, Web Push, Brevo, Cloudinary

Tools: Git, GitHub, Postman, Vercel, Python

PROJECTS

RailMate Bangladesh (Live) **Live Preview**

Technology: React Native, Expo, NativeWind, Node.js, Next.js, Supabase (PostgreSQL)

- Bangladesh's railway companion app — schedules, fares, and live delay reports from the community.
- Verified schedule dataset covering 137 trains across 1,225 stops nationwide.

Badar Uddin Welfare (In production) **Live Preview**

Technology: React, Vite, Node.js, Express, MongoDB, JWT

- Production charity system deployed for a real Bangladeshi NGO.
- Three-tier RBAC enforced server-side: superAdmin → admin → member with scoped API permissions.

MicroTask Platform **Live Preview**

Technology: React, Node.js, Express, MongoDB, JWT

- Three-sided task marketplace with server-enforced lifecycle and Stripe disbursement.
- Task status transitions validated at the API layer, not client-driven.

LiveCollab **Live Preview**

Technology: React 18, Vite, Tailwind CSS, Zustand, React Query, @dnd-kit

- Shared Kanban state across connected clients — no polling or refresh.

DevFolio Analyzer **Live Preview**

Technology: React 18, React Router, Recharts, Node.js, Express, MongoDB

- GitHub profile intelligence — deterministically scored, AI-augmented, and structured.

EXPERIENCE

Freelance Full-Stack & React Native Developer — Self-employed, remote (2025 – Present)

Mobile apps, web apps, backends, and Telegram bots for clients, plus own products such as RailMate Bangladesh.

Data Entry Specialist — Nation IT Limited (2024 – June 2025)
